How often are children injured in accidents?

More than 7.8 million children visit emergency rooms annually due to accidents.¹

Unexpected accidents happen every day.

How much would a trip to the emergency room cost you?

*One trip may involve many services – an ambulance ride,
X-rays, medicines and physician fees.*

Emergency costs add up quickly.

***Would you worry about getting your injured child
the best care available?***

*Most people don't budget for the costs of accidents, and health insurance
only covers so much.*

Paying for quality care could be a challenge.

We'll take care of the bills...

You want to be active and healthy, but accidents are just a part of life — especially sports-related ones. They can happen to anyone, anywhere — from the soccer field to the ski slope and the highway in between. Ending up in urgent care can hurt more than a knee; it can hurt your finances.

That's where Accident insurance can help. Accident insurance helps pay for the unexpected expenses that result from accidents. It pays benefits above and beyond what your health insurance plan pays. Your benefits can be used any way you choose — from medical insurance deductibles to child care to home care. Trustmark Accident insurance helps take care of the bills, so you can take care of each other.

...while you take care of each other.
